## Full Stack Developer

+(91) 8509157398 | 21051582@kiit.ac.in  
Kolkata, West Bengal, IN

### OBJECTIVE

Hi there! I'm passionate about web development and creating dynamic, user-friendly websites. I've gained a strong foundation in HTML, CSS, and JavaScript, and am constantly expanding my skill set to stay on top of the latest trends and technologies. I love collaborating with teams and finding creative solutions to complex problems. When I'm not coding, you can find me exploring new places, playing badminton, listening to songs, or just chilling with friends and family.

### EDUCATION

Kiit University  
Bachelor of Technology - Computer  
Science & Engineering  
August-2021-July 2025

St. Mary Goretti Girls' Secondary High  
School  
Senior Secondary School  
2018 - 2020

St. Mary Goretti Girls' High  
School  
Secondary School  
2016 - 2018

### Projects

#### ○ StudyNotion- EdTech Platform

As a full stack developer, I am currently working on an exciting project called Studynotion, an innovative edtech platform. Studynotion aims to revolutionize the way students learn and interact with educational content. Here are some key points about the platform:

- **Personalized Learning:** StudyNotion leverages AI algorithms to provide personalized learning experiences tailored to each student's unique needs and learning style.
- **Interactive Content:** The platform offers engaging and interactive learning materials, including videos, quizzes, and simulations, to enhance student engagement and comprehension.
- **Collaboration Features:** Studynotion encourages collaboration among students by providing features such as discussion forums, group projects, and fostering a sense of community and knowledge sharing.
- **Progress Tracking:** With comprehensive progress tracking tools, Studynotion enables students to monitor their performance, track their learning goals, and receive personalized feedback, facilitating continuous improvement.

#### ○ Movie Website Clone - OTT Platform

I am currently involved in the development of a project called Movie Clone, a dynamic ott platform. It aims to replicate the user experience and functionality of the popular ott giant. Here are some key points about the project:

- **User-Friendly Interface:** Created a user-friendly interface allowing users to search and browse movies, view detailed information, watch trailers, and read reviews.
- **Implemented user registration and authentication systems,** enabling users to create accounts, rate movies, and submit their own reviews.
- **Utilized backend technologies and databases to handle user-generated content,** such as comments, ratings, and user profiles.
- **Conducted comprehensive testing and debugging to ensure a smooth user experience across different browsers and devices.**

### Skills

- **Tools:** Visual Studio Code, Terminal, Github
- **Programming:** Html, Css, TailwindCss, JavaScript, ReactJs, C++
- **Technology:** Nodejs, MongoDB, Git
- **Operating System:** Windows, Linux, MacOS

### TECHNICAL EXPERIENCE

Full Stack Development Intern  
Acmegrade

April 2023 – June 2023

- Developed and deployed an MVP model for an Ecommerce platform, demonstrating expertise in full-stack development.
- Utilized MongoDB to efficiently store data and ensure reliability.
- Implemented Next.js as the front-end framework and Node.js for back-end to provide a smooth user experience.

### Certification

- MERN Stack Web Development Course- CodeHelp
- Data Structure and Algorithm Course- CodeHelp
